BUILD 100% AFFORDABLE

Together, we can build thousands of affordable housing units.

Building on our recent victories to develop 3891 affordable housing units on underutilized state-owned land at Creedmoor and Kingsboro psychiatric hospital sites, join Metro IAF NY to further our fight for affordable housing by:

- Developing Public Land for Public Good by building 100% affordable state and city-owned land and NYCHA
- Improving affordable buildings by calling for relentless code enforcement.
- Aggregating and building 100% affordable housing on congregation land
